

Important information to all employees regarding travels

Updated 14.03.2020 – 16:00

To prevent the spreading of Covid-19 (the coronavirus) while contributing to upholding necessary health and caretaking services, The Norwegian Directorate of Health (Helsedirektoratet) has introduced the following guidelines:

- The Norwegian Directorate of Health want domestic transport to continue as normally as possible, but they strongly encourage everyone to avoid recreational travels.
- The Norwegian Directorate of Health encourages everyone to avoid travels that are not strictly necessary (both domestically and abroad), avoid public transport if you can, avoid places you are more exposed to close contact with others, avoid close contact with others.

If you have been outside of Norway, we ask you to read the recommendations and advice given by The Norwegian Institute of Public Health (FHI) and The Foreign Ministry (UD) regarding whether you must be in quarantine retroactively.

If you have been abroad within 14 days of planned departure offshore, we ask you to keep us informed as soon as possible.

Those who are currently abroad should travel home as soon as possible, as it is uncertain how the situation will be in the near future regarding transport. This is based on the recommendations of The Norwegian Directorate of Health.
